

# CERETAN MXBP 00825

## TECHNICAL INFORMATION

**Chemical description:** Spherical, micronized functional blend predominantly based on Biopolymer

**Applications:** **Paints and coatings**, e.g. powder-, can-, car-, industrial-, building-, furniture- and floor coatings

**Printing inks** e.g. gravure-, overprint-, screen-, flexo-, heatset-, sheetfed- and coldset inks

- Properties:**
- Outstanding rub resistance
  - Good scratch- and abrasion resistance
  - High transparency
  - Good antiblocking properties

- Advantages:**
- Spherical particle shape made by unique spraying technology
  - Specified maximum particle size (D99 value), narrow and uniform particle size distribution
  - Easy to disperse due to the spherical particle shape

**Technical data:**

Colour: white

Consistency: fine powder

	Minimum	Maximum	Method
<b>Particle size*</b>			
Specified value:		99% < 25 µm	LV 5
Typical value:		50% < 7 µm	(ISO 13320)
Shelf life:	24 months (Stored in sealed original packing below 35 °C)
