Type	Rutile titanium dioxide R5188S
Classification	Rutile titanium dioxide R5188S conforms to: ISO 591-1-2000 Type R2 ASTM D476-84 Type II
Feature	R5188 is a multipurpose Rutile titanium dioxide pigment , manufactured by sulphate process,which is designed to give outstanding combination of high gloss, high dispersibility, durability and high weather resistance.
Application:	Water and solvent-based coating, high gloss exterior and interior Wall emulsion paint, plastic and masterbatch
Typical properties	TiO ₂ content,%..... ≥93.5 Matter Volatile at 105°C,% ≤0.5 PH Value of aqueous suspension.....6.0-8.5 Oil absorption,g/100g.....≤22 Residue on sieve(45μm),%.....≤0.05 Tint-Reducing power(Reynolds number).....≥115 Brightness,≥94.5 Rutile content,%.....≥98 Specific Resistance,Ω.m.....≥60 Oil dispersion (Hegman).....≥6 Surface treatment.....Coated with ZrO ₂ & Al ₂ O ₃ and organic
Packing	25KG paper bag; 500KG jumbo bag; 1000KG jumbo bag.
Transportation Safety	Keep the package in good condition and keep the stability of the goods when move it. Keep it free from sunshine, rain and high-temperature.
